

Wings of Eagles Counseling Clinic

To nurture a partnership of hope, health and wholeness in all people using solution focused and evidenced bases practices

During my journey to earn a master's degree in School Business Management, I've accumulated over two decades of professional accounting experience. For a significant portion of my career, I proudly served as the Director of Business Services at a prominent school district service provider in Wisconsin. In this role, I managed a substantial portfolio of more than 13 million dollars in funds, scholarships, and grants. I am currently a dedicated truck driver at various companies throughout WI. Beyond my professional endeavors, I also dedicate my accounting skills to my church as a volunteer business accountant.

My educational background comprises a master's degree in School Business Management, a bachelor's degree in Accounting and Health Care Administration, and an ongoing pursuit of a Public Accounting Certification. This combination of knowledge and expertise has made my transition into the role of an Account Specialist at Wings of Eagles Counseling a seamless one.

Outside of my professional life, I'm deeply committed to contributing to my community by serving as a Brown County CPS respite provider. I find solace and inspiration in reading autobiographies, memoirs, and engaging in various self-care practices, including crafting. While I thoroughly enjoy my profession, my innate nature as a giver and a creative soul has earned me the affectionate title of "Auntie GG" from numerous children in my area.

My diverse experiences, academic achievements, and personal passions all come together to shape my multifaceted and fulfilling life. I'm excited to continue my professional journey and make a positive impact at Wings of Eagles.
